

Table of Contents

1. Atmospheric data assimilation schemes, analysis and initialization, data impact studies, observing system experiments

Author	Paper Title	Country	Pages
H. Anlauf, A. Rhodin, W. Wergen	Representation of inhomogeneous, non-separable covariances by sparse wavelet-transformed matrices	Germany	01-01
D. Brown, D. Noone	The dominant controls on tropospheric hydrology over continental convective regions using isotope measurements from space	USA	01-03
R. Danielson, M. Dowd, H. Ritchie	Marine Wind Analysis with the Benefit of Radarsat-1 Synthetic Aperture Radar Data	Canada	01-05
Y. Ishikawa	Tokyo Radar Wind Data Assimilation with the JMA Meso 4D-VAR	Japan	01-07
T. Miyoshi, Y. Sato	Applying a local ensemble transform Kalman filter to the JMA global model	Japan	01-09
T. Miyoshi, K. Aranami	Applying a local ensemble transform Kalman filter to the JMA nonhydrostatic model	Japan	01-11
K. Okamoto	Improvement of ATOVS radiance assimilation	Japan	01-13
E. Ozawa, Y. Sato, H. Tada, Y. Aoyama	Assimilation of space based GPS occultation data for JMA GSM	Japan	01-15
Y. Sato	Introduction of spaceborne microwave imager radiance data into the JMA global data assimilation system	Japan	01-17
Y. Sato	Introduction of variational bias correction technique into the JMA global data assimilation system	Japan	01-19
H. Seko, Y. Shoji, M. Kunii, K. Saito, Y. Aoyama	Data Assimilation Experiments using CHAMP Refractivity Data	Japan	01-21
M.D.Tsyruльников, P.I.Svirenko	A covariance model based on 3-D spatial filters: potential for flow-dependent covariance modelling	Russia	01-23
K. Yamashita	Revised usage of Atmospheric Motion Vectors (AMV) from all geostationary satellites in the operational global 4D-Var assimilation system	Japan	01-25

2. Data sets, diagnostic and dynamical investigations, statistical post-processing , multi-year reanalyses and associated studies

Author	Paper Title	Country	Pages
M.G. Akperov	Tropospheric Lapse Rate and its Relation to Surface Temperature for warm and cold seasons from Reanalysis Data	Russia	02-01

Table of Contents

Author	Paper Title	Country	Pages
O.A. Alduchov, I.V. Chernykh	Temperature Trends in Antarctic Atmosphere Detected by the Method Based on the Using of Hourly Observations	Russia	02-03
A.V. Chernokulsky	Cloudiness anomalies and El Nino effects	Russia	02-05
I.V. Chernykh	About Accuracy of High Cloud Amount Detecting from Radiosonde Sounding	Russia	02-07
I.V. Chernykh, O. Alduchov	Trends in Low Cloud Boundary for Antarctic Region	Russia	02-09
I.V. Chernykh, O.A. Alduchov	Trends in Low Boundary of Cloud Layers with Cloud Amount 80-100% of the Sky for Antarctic Region	Russia	02-11
H.P. Frank, D. Majewski	Hindcasts of historic storms with GME, COSMO-LMQ, and COSMO-LMK	Russia	02-13
S. Gregory, D. Noone, D. Schneider	Variability in the Teleconnection Between ENSO and West Antarctic Climate	USA	02-15
I.N. Kuznetsova, M.N. Khaikine, M.I. Nakhayev	The mean yearly temperature lapse rates in the urban atmospheric boundary layer (ABL) on microwave sounding data	Russia	02-17
I.I. Mokhov, V.A. Bezverkhny, A.A. Karpenko, N.S. Keenlyside, S.S. Kozlenko	Cross-wavelet analysis of coherence and time lags between El Niño and Atlantic equatorial mode	Russia	02-19
A.V. Muraviev, I.A. Kulikova, E.N. Kruglova	Circulation indices extremes in seasonal hindcast integrations	Russia	02-21
A.B. Pezza, T. Durrant, I. Simmonds, I. Smith	Southern Sea Ice, cyclone behaviour and rainfall in Melbourne and Perth	Australia	02-23
A.B. Pezza, I. Simmonds	The climatic importance of South Atlantic hurricane Catarina (2004)	Australia	02-25
I. Simmonds, M.R. Drinkwater	A ferocious and extreme Arctic storm in a time of decreasing sea ice	Australia	02-27
M. Ueno	An analytical expression for the amplitude of wavenumber-one vertical velocity in the inner-core region of tropical cyclones under the influence of vertical ambient shear	Japan	02-29

3. Computational studies including new techniques, the effect of varying model resolution, parallel processing

Author	Paper Title	Country	Pages
F. Baer, H. Wang, J.J. Tribbia, A. Fournier	Climate Modeling with Spectral Elements	USA	03-01

Table of Contents

Author	Paper Title	Country	Pages
M. Déqué, S. Somot	Variable resolution versus limited area modelling: perfect model approach	France	03-03
M. Fox-Rabinovitz, J. Côté, B. Dugas, M. Déqué, J.L. McGregor	Initial Results of the SGMIP-2 (Stretched-Grid Model Intercomparison Project, phase-2)	USA	03-05
T. Heinze, T. Ruppert, P. Korn, L. Bonaventura	Velocity reconstruction by radial basis functions in a triangular staggered C grid	Germany	03-07
J. Ishida	Development of a hybrid terrain-following vertical coordinate for JMA Non-hydrostatic Model	Japan	03-09
V.M. Krasnopolsky, M.S. Fox-Rabinovitz, A. Belochitski	Compound Parameterization for a Quality Control of Outliers and Larger Errors in NN Emulations of Model Physics	USA	03-11
V.P. Parkhomenko	AGCM parallel realization on cluster	Russia	03-13
J.A. Pudykiewicz	Shallow Water Equations with Chemical Transport	Canada	03-15
B.-W. Shen, W.-K. Tao, J.-D. Chern	Improvements in the Scalability of the NASA Goddard Multiscale Multicomponent Modeling Framework for Hurricane Climate Studies	USA	03-17

4. Parameterization of important atmospheric and surface processes, effects of different parameterizations

Author	Paper Title	Country	Pages
N. Buenting, D. Noone, W. Riley, C. Still, J. Randerson, L. Welp, J. White, B. Vaughn, J. Miller, P. Tans	Modeling Interannual Variability of $\delta^{18}O$ of Atmospheric CO ₂ and its Dependence on Humidity and Isotope Hydrology	USA	04-01
L.R. Dmitrieva–Arrago, M.V. Shatunova	The Method of the Cloud – Radiation Interaction Description for the Atmospheric Hydrodynamical Model	Russia	04-03
J.-F. Geleyn, Y. Bouteloup, B. Catry, R. Brožková	A PDF-based method for computing the sedimentation effects within a full prognostic microphysical scheme	Czech Republic	04-05
T. Hara	Implementation of improved Mellor-Yamada Level 3 scheme and partial condensation scheme to JMANHM and their performance	Japan	04-07
Y. Jiao, C. Jones	Cloud processes simulated by the Canadian Regional Climate Model along a cross-section in the Pacific Ocean	Canada	04-09
J. Ruiz, F. Lorena, C. Saulo	WRF-ARW sensitivity to different planetary boundary layer parameterization over South America	Argentina	04-11
N. Kohno, A. Murata	The Impact of the Sea State on the Typhoon Intensity in Atmosphere-wave coupled model	Japan	04-13

Table of Contents

Author	Paper Title	Country	Pages
A. Murata	Entrainment and Detrainment in Numerically Simulated Cumulus Clouds and Their Relationship to Buoyancy	Japan	04-15
S. Nickovic	Coupled atmosphere-hydrology system for routine prediction of overland water flow	Malta	04-17
S. Nickovic, Z.I. Janjic, P. Kishsha, P. Alpert	Model for simulation of the sea salt aerosol atmospheric cycle	Malta	04-19
D. Noone	Assessing global model hydrology with simulations from the Stable Water-isotope Intercomparison Group	USA	04-21
C. Papon, C. Jones, D. Paquin, Y. Jiao	Shallow cumulus parameterisation in the CRCM	Canada	04-23
D.W. Shin, S. Cocke, T.E. LaRow, Y.-K. Lim	Climate Model Capability in Resolving Diurnal Cycle of Rainfall	USA	04-25

5. Development of and studies with regional and smaller-scale atmospheric models, regional ensemble, monthly and seasonal forecasting

Author	Paper Title	Country	Pages
M. Baldauf, K. Stephan, S. Klink, C. Schraff, A. Seifert, J. Förstner, T. Reinhardt, C.-J. Lenz	The new very short range forecast model COSMO-LMK for the convection-resolving scale	Germany	05-01
L. Berkovich, Y. Tkacheva, V. Shnaydman	Surface wind prediction by the boundary layer model	Russia	05-03
F. Bouttier and collaborators	Progress and plans of the Météo-France NWP system in 2006: ARPEGE, ALADIN and AROME systems	France	05-05
H. Eito, K. Aonashi	Resolution dependence of hydrometeor structures generated by cloud resolving model	Japan	05-07
G. Faure, S. Westrelin	A new Météo-France NWP system over the southwest Indian ocean	France	05-09
T. Hara, K. Aranami, R. Nagasawa, M. Narita, T. Segawa, D. Miura, Y. Honda, H. Nakayama, K. Takenouchi	Upgrade of the operational JMA non-hydrostatic mesoscale model	Japan	05-11
T. Kato, S. Hayashi	Relation of Dec. 2005 heavy snowfall and cloud-top heights around the Japan-Sea side of the Japan Islands, estimated from objective analyses and forecasts of cloud-resolving model	Japan	05-13

Table of Contents

Author	Paper Title	Country	Pages
W. Mashiko	Numerical simulation of tornado-producing supercell storm and tornado associated with Typhoon Shanshan (2006)	Japan	05-15
A. Murata	Precipitation Efficiency in Numerically Simulated Orographic Rainfall Associated with Typhoon Meari (2004)	Japan	05-17
H. Nakayama, Y. Ishikawa, T. Fujita, K. Takenouchi	Experimental operation of a high-resolution local forecast model at JMA	Japan	05-19
A.E. Pokhil, A.D. Naumov, M.Y. Zaichenko	Calculation of the tracks of typhoons threatening the coasts of Russia	Russia	05-21
J. Ruiz	A high resolution, real time experimental forecast for the Río de la Plata: A “Sea-Breeze” case study	Argentina	05-23
K. Saito, H. Seko, M. Kunii, T. Hara, M. Kyouda, M. Yamaguchi	Preliminary Mesoscale Ensemble Prediction experiment for WWRP Beijing 2008 RDP	Japan	05-25
K. Saito	Development of a BGM method with the JMA nonhydrostatic mesoscale model	Japan	05-27
T. Segawa, Y. Honda	Verification method to evaluate simultaneously both intensity and coverage of precipitation forecast	Japan	05-29
H. Seko, K. Saito, M. Kunii, T. Hara, M. Kyouda, M. Yamaguchi	Japan Area Mesoscale Ensemble Experiments using JMANHM	Japan	05-31
V. Shnaydman, G. Stenchikov, L. Berkovitch	Advanced Model of Atmospheric Boundary Layer	Russia	05-33
I. Takano, Y. Aikawa, S. Gotoh	Improvement of photochemical oxidant information by applying transport model to oxidant forecast	Japan	05-35
W. Tennant	Installation of the Unified Model for NWP in South Africa	South Africa	05-37
E. Tourigny, C. Jones	Seasonal Prediction at the Regional Scale: An Analysis of Regional Climate Model Performance Over the Tropical Americas	Canada	05-39

6. Developments in global forecast models, case studies, predictability investigations, global ensemble, monthly and seasonal forecasting

Author	Paper Title	Country	Pages
T. Koenigk, U. Mikolajewicz	Seasonal to interannual predictability of high northern latitude climate	Germany	06-01

Table of Contents

Author	Paper Title	Country	Pages
T.E. LaRow, Y.K. Lim, D.W. Shin, S.D. Cocke, E. Chassignet	High Resolution Ensemble West Atlantic Basin Seasonal Hurricane Simulations	USA	06-03
N. Savage, S. Milton, D. Walters, J. Heming	Improvements to Met Office Fifteen Day Forecasts with Revised Physical Parameterizations	UK	06-05
B.-W. Shen, W.-K. Tao, R. Atlas	Simulations of Multiple Tropical Cyclones with a Global Mesoscale Model: A Preliminary Study on the NASA Columbia Supercomputer	USA	06-07
R. Swinbank, H. Watkin, C. Johnson, S. Thompson	Medium-Range Ensemble Forecasts at the Met Office	UK	06-09

7. Global and regional climate models, sensitivity and impact experiments, response to external forcing

Author	Paper Title	Country	Pages
V.M. Khan, K. Rubinstein, M. Zoloeva	Sensitivity of Snow Water Equivalent Distribution to Variations of Critical Snow Albedo in GCM Experiments of Hydrometcentre of Russia	Russia	07-01
V.C. Khon, I.I. Mokhov, E. Roeckner	Changes of seasonal ice area in the Arctic Ocean from model simulations with IPCC SRES scenario	Russia	07-03
V.C. Khon, M. Latif, I.I. Mokhov, E. Roeckner, V.A. Semenov	Impact of the North Atlantic thermohaline circulation on the European and Northern Atlantic weather in a coupled GCM simulation	Russia	07-05
Z. Kothavala, C. Jones, D. Paquin, A. Zadra	The transferability of Regional Climate Models through an assessment of the diurnal cycle	Canada	07-07
E.-P. Lim, I. Simmonds	Sensitivity of the general circulation and extratropical cyclone characteristics to tropical and polar heating	Australia	07-09
Y.-K. Lim, D.W. Shin, T.E. LaRow, S. Cocke	Categorical predictability of regionalized surface temperature and precipitation over the southeast United States	USA	07-11
M. Markovic, C. Jones, P. Vaillancourt, D. Paquin	The Simulated Surface Radiation Budget over North America in a Suite of Regional Climate Models	Canada	07-13
I.I. Mokhov, M.G. Akperov, A.V. Chernokulsky, J.-L. Dufresne, H. Le Treut	Comparison of cloudiness and cyclonic activity changes over extratropical latitudes in Northern Hemisphere from model simulations and from satellite and reanalysis data	Russia	07-15
D. Paquin-Ricard, C. Jones, P. Vaillancourt	Comparison of Cloud Microphysics between GEM and ARM-SGP Observations	Canada	07-17
V.A. Semenov	Simulation of the Arctic temperature variability in the 20th century with a set of atmospheric GCM experiments	Germany	07-19

Table of Contents

8. Development of and advances in ocean modelling and data assimilation, sea-ice modelling, wave modelling

Author	Paper Title	Country	Pages
D.W. Ganer, A.A. Deo	Simulation of Cold pool and its interannual variability in the tropical Indian Ocean	India	08-01
Y.D. Resnyansky, A.A. Zelenko, B.S. Strukov	Ensemble of Trajectories in the Southern Ocean Circulation System	Russia	08-03
A. Wada, H. Niino, H. Nakano	Improvement of multi-limit mixed-layer entrainment parameterization from the results in an ocean global circulation model	Japan	08-05
A.A. Zelenko, Y.D. Resnyansky	Interannual Variations of the Upper Ocean Mixed Layer in Deep Convection Regions as Revealed by Numerical Experiments With an OGCM	Russia	08-07

9. Development of and studies with coupled ocean-atmosphere models

Author	Paper Title	Country	Pages
L.-P. Caron, C.G. Jones	Analysis of Inferred Cyclogenesis Frequency in ERA-40 Reanalysis and in an Ensemble of Models	Canada	09-01
A.V. Eliseev, I.I. Mokhov, M.M. Arzhanov, P.F. Demchenko, S.N. Denisov	Coupled climate-methane cycle simulation with a climate model of intermediate complexity forced by SRES A2 scenario	Russia	09-03
A.V. Eliseev, M.M. Arzhanov, P.F. Demchenko, S.N. Denisov, I.I. Mokhov	Permafrost response to SRES A2 greenhouse forcing in a climate model of intermediate complexity	Russia	09-05
H. Ritchie, D. Bancroft, G. Flato, J. Loder, N. Scantland, K. Thompson, D. Wright	Initiating an Operational Canadian Global Assimilation and Prediction Capability for the Coupled Atmosphere-Ocean-Ice System	Canada	09-07
A. Wada, A. Murata	Effects of horizontal resolution and sea surface cooling on simulations of tropical cyclones in case of Typhoon Namtheun (2004) by a coupled MRI tropical cyclone-ocean model	Japan	09-09
