

Table of Contents

1. Atmospheric data assimilation schemes, analysis and initialization, data impact studies, observing system experiments

Author	Paper Title	Country	Pages
N.N. Bogoslovskii, M.A. Tolstykh	Variational assimilation of screen-level temperature for the global semi-Lagrangian NWP model SL-AV	Russia	01-01
A. Bouchard, A. Doerenbecher, F. Rabier, V. Guidard, F. Karbou	NWP preparations at Météo-France for the Concordiasi project	France	01-03
D. Brown, D. Noone	Using Isotopic Constraints to Model Monsoonal Moisture Exchange	USA	01-05
Y. Honda, K. Sawada	A New 4D-Var for Mesoscale Analysis at the Japan Meteorological Agency	Japan	01-07
T. Ishibashi	Assimilation of WV CSR from MTSAT-1R in the JMA global 4DVAR system	Japan	01-09
F. Karbou, É. Gérard, F. Rabier	Towards the assimilation of surface sensitive satellite microwave observations over land at Météo-France	France	01-11
T. Kawabata, T. Kuroda, H. Seko, K. Saito	An Assimilation Experiment of a Heavy Rainfall Event around Tokyo with a Cloud-Resolving Nonhydrostatic 4D-Var Assimilation System	Japan	01-13
M. Kunii, K. Saito, H. Seko	Assimilation of Precipitation Data in Beijing Area	Japan	01-15
T. Miyoshi, Y. Sato, T. Kadowaki, M. Kazumori, R. Sakai, M. Yamaguchi	Developments of a local ensemble transform Kalman filter with JMA global model	Japan	01-17
H. Owada	Increase of ATOVS radiance data in the JMA global data assimilation system in 2007	Japan	01-19
F. Rabier, P. Poli, V. Guidard, N. Fourrié, E. Gérard, F. Karbou, P. Moll, C. Payan	Current developments on global satellite data assimilation at Météo-France	France	01-21
K. Saito, H. Seko, M. Kunii, M. Hara	Mesoscale Ensemble Prediction experiment for WWRP Beijing Olympic 2008 RDP -- 2007 preliminary experiment --	Japan	01-23
H. Seko, T. Miyoshi, M. Kunii, K. Saito	Japan area ensemble forecast using NHM-LETKF	Japan	01-25
H. Seko, Y. Shoji, M. Kunii, J.-I. Furumoto, T. Tsuda	Assimilation experiments using COSMIC occultation data	Japan	01-27
H. Seko, K. Saito, M. Kunii, T. Hara, M. Yamaguchi	Meso-ensemble experiments on potential parameter of tornado formation using JMANHM	Japan	01-29
H. Seko, K. Saito, M. Kunii	Tier-2 downscale experiments of B08RDP	Japan	01-31
A. Shlyaeva, M. Tolstykh	New 2-Meter Relative Humidity Analysis for SL-AV model	Russia	01-33

Table of Contents

2. Data sets, diagnostic and dynamical investigations, statistical post-processing , multi-year reanalyses and associated studies

Author	Paper Title	Country	Pages
A.M. Akperov	Variability of global SLP fields of pressure according to NCEP/NCAR reanalysis	Russia	02-01
O.A. Alduchov, I.V. Chernykh	Temperature Trends in Troposphere over North-West of Siberia Detected by the Method Based on the Using of Hourly Observations	Russia	02-03
O.A. Alduchov, I.V. Chernykh	Water Vapour Amount Trends in Troposphere over North-West of Siberia Detected by the Method Based on the Using of Hourly Observations	Russia	02-05
A.V. Chernokulsky	Total cloudiness changes during 1983-2006 from ISCCP data	Russia	02-07
S. Gregory, D. Noone, D. Schneider	Ice Core Isotope Inversion for Determining Global Climate Indices	USA	02-09
A.A. Karpenko, I.I. Mokhov	Antarctic Peninsula warming from model simulations	Russia	02-11
S.S. Kozlenko, I.I. Mokhov, D.A. Smirnov	Nonlinear analysis of interaction between El Niño and Atlantic equatorial mode	Russia	02-13
I. Mokhov, D.A. Smirnov	Relationships between global surface temperature, carbon dioxide atmospheric content, solar and volcanic activity during the last 150 years	Russia	02-15
H. Onoda	WGNE Intercomparison of Tropical Cyclone Forecasts using Operational Global Models	Japan	02-17
E.V. Perekhodtseva	The Hydrodynamic - Statistical Model of Operative Forecast of the Complex of Dangerous Phenomena (Heavy Rainfall, Storm Wind Including Squall and Tornado, Thunderstorm and Hail) at the Territory of Russia	Russia	02-19
A.B. Pezza, J.A.P. Veiga, I. Simmonds, P.L. Da Silva Dias	'Energy box diagram' investigation of South Atlantic hurricane Catarina	Australia	02-21
I. Simmonds	Frontal features over the Southern Ocean	Australia	02-23

3. Computational studies including new techniques, the effect of varying model resolution, parallel processing

Author	Paper Title	Country	Pages
A.S. Daloz, C. Jones	The benefits of increased resolution in simulating precipitation over Sub-Saharan Africa. A comparison of AMIP integrations of GEM at 1° and 2° model resolution	Canada	03-01
R.Y. Fadeev, M.A. Tolstykh	Development of the nonhydrostatic dynamical core for SL-AV model	Russia	03-03

Table of Contents

Author	Paper Title	Country	Pages
M. Fox-Rabinovitz, J. Côté, B. Dugas, M. Déqué, J.L. McGregor, A. Belochitski	SGMIP-2 (Stretched-Grid Model Intercomparison Project): Decadal Regional Climate Simulations with Enhanced Variable and Uniform-Resolution GCMs	USA	03-05
V.M. Krasnopolsky, M.S. Fox-Rabinovitz, S.J. Lord, Y.-T. Hou, A.A. Belochitski	Accurate and Fast Neural Network Emulations of Long Wave Radiation for the NCEP Climate Forecast System Model: Preliminary Results	USA	03-07
J.A. Pudykiewicz	Experiments with Regularization of the Geodesic Icosahedral Grid	Canada	03-09
K. Saito, M. Kunii, H. Seko, M. Yamaguchi, K. Aranami	Implementation of lateral boundary perturbations into mesoscale EPS	Japan	03-11
A. Shlyayeva, M. Tolstykh	Finite-element scheme for the vertical discretization of the global semilagrangian SL-AV model	Russia	03-13
M. Tolstykh	Implementation of the reduced grid in the shallow-water prototype of the global finite-difference SL-AV model	Russia	03-15

4. Parameterization of important atmospheric and surface processes, effects of different parameterizations

Author	Paper Title	Country	Pages
P.-L. Carpentier, C. Jones	Evaluation of the Stable Boundary Layer processes in the Global Environmental Multiscale (GEM) Model over the Arctic Ocean during SHEBA	Canada	04-01
J. Dorais, E. Girard, P. Du	Simulation of Arctic Mixed-Phase Clouds Observed during M-Pace using the Global Environmental Multiscale Model (GEM): Evaluation of two Bulk Microphysics Schemes	Canada	04-03
T. Hara	Performance of the improved Mellor-Yamada Level 3 scheme on JMA-NHM	Japan	04-05
T. Kato, S. Hayashi	Problems on the usage of Kain-Fritsch parameterization in a 5km model: Statistical comparison with cloud-top heights of cumulonimbi simulated by a cloud resolving model	Japan	04-07
M. Nakagawa	Improvement of the Cumulus Parameterization Scheme of the Operational Global NWP Model at JMA	Japan	04-09
M. Narita	Inclusion of a temperature perturbation based on the relative humidity to the Kain-Fritsch convective parameterization scheme	Japan	04-11
V. Shnaydman, G. Stenchikov	Improved numerical scheme of turbulence closure	USA	04-13

Table of Contents

5. Development of and studies with regional and smaller-scale atmospheric models, regional ensemble, monthly and seasonal forecasting

Author	Paper Title	Country	Pages
M. Déqué, S. Somot	Added value of high resolution for ALADIN Regional Climate Model	France	05-01
H. Eito, K. Aonashi	The sensitivity of passive microwave responses to the hydrometeor properties simulated by a cloud resolving model in real rainfall systems associated with Baiu front	Japan	05-03
E. Glebova, I. Trosnikov	Helicity as an indicator of tropical cyclone's intensity	Russia	05-05
T. Hara, M. Narita, R. Nagasawa, D. Miura, Y. Furuichi	Replacement of lateral boundary condition in the operational mesoscale model at JMA	Japan	05-07
A. Hashimoto, T. Kato, S. Hayashi, M. Murakami	Numerical experiment on the sensitivity of precipitation enhancement to cloud seeding position for the winter orographic cloud in Japan	Japan	05-09
A. Kesarkar, M. Dalvi, A. Thomas, A. Kaginalkar	Simulation of Diurnal Variation of Planetary Boundary Layer Parameters over Western Ghats of India	India	05-11
A. Kesarkar, A. Kaginalkar, B.K. Samala, V.C. Shelke, R.V. Panse	Verification of Experimental Quantitative Precipitation Forecast over Koyna Dam Catchment using WRF	India	05-13
I. Marinin, V. Shnaydman	Urban Heat Island over the Coastal City	USA	05-15
W. Mashiko	Numerical simulation of supercell tornadogenesis associated with Typhoon Shanshan (2006)	Japan	05-17
A. Montani, C. Marsigli, T. Paccagnella	Five years of COSMO-LEPS at ARPA-SIM	Italy	05-19
H. Seko, S. Hayashi, M. Kunii, K. Saito	Numerical simulation of severe weather events in South/Southeast Asia using NHM	Japan	05-21
K. Takenouchi, H. Kurahashi, T. Fujita, K. Aranami	Experimental operation of a high-resolution local forecast model at JMA (2)	Japan	05-23
M. Ueno	On the phase and amplitude of shear-induced wavenumber-one convective asymmetry in the inner-core region of tropical cyclones	Japan	05-25

6. Developments in global forecast models, case studies, predictability investigations, global ensemble, monthly and seasonal forecasting

Author	Paper Title	Country	Pages
F. Bouttier and collaborators	Recent progress in operational Numerical Weather Prediction at Météo-France	France	06-01
K. Iwamura, H. Kitagawa	An upgrade of the JMA Operational Global NWP Model	Japan	06-03

Table of Contents

Author	Paper Title	Country	Pages
I.A. Kulikova, A.V. Muraviev	Trends in circulation indices extremes in reanalysis data and seasonal hindcast integrations	Russia	06-05
I.A. Rozinkina, E.D. Astakhova, Y.V. Alferov, T.Y. Ponomareva, V.I. Tsvetkov, D.V. Blinov	Predictions of extremely low near-surface temperatures over Eastern Siberia in winter with spectral model with different resolutions	Russia	06-07
R. Sakai, M. Kyouda, M. Yamaguchi, T. Kadowaki	A new operational one-week Ensemble Prediction System at Japan Meteorological Agency	Japan	06-09
M. Yamaguchi, R. Sakai, M. Kyoda, T. Komori, T. Kadowaki	Typhoon Ensemble Prediction System developed at Japan Meteorological Agency	Japan	06-11

7. Global and regional climate models, sensitivity and impact experiments, response to external forcing

Author	Paper Title	Country	Pages
M.M. Arzhanov, P.F. Demchenko, A.V. Eliseev, I.I. Mokhov	Response of permafrost to SRES A2 forcing in a climate model of intermediate complexity with a detailed soil module	Russia	07-01
N. Buening, D. Noone	Using Isotopes and an Observational Based Regression Model to Assess the Hydrological Cycle in GCMs	USA	07-03
L.-P. Caron, C.G. Jones, K. Winger	Simulating High-Resolution Atlantic Tropical Cyclones with GEM-Climate	Canada	07-05
A.V. Chernokulsky, I.I. Mokhov	Forest fire conditions in Eurasian regions from model simulation	Russia	07-07
A.V. Chernokulsky, A.V. Eliseev, I.I. Mokhov	Geoengineering efficiency: Preliminary assessment for year 2100 with an energy-balance climate model	Russia	07-09
S.N. Denisov, A.V. Eliseev, I.I. Mokhov	Evaluation of changes in methane emissions by wetlands of the European and Asian parts of Russia in the 21th century based on regional climate model simulations	Russia	07-11
F. Kaspar, U. Cubasch	Modelling regional climate change in Eastern Africa on orbital and tectonic time scales	Germany	07-13
M. Markovic, C. Jones, K. Winger	An Assessment of the Surface Radiation Budget over North America in the GEM-LAM Regional Climate model, Reanalysis Datasets and Satellite Based Products	Canada	07-15
J.L. McGregor, K.C. Nguyen, M. Thatcher	Regional climate simulation at 20 km using CCAM with a scale-selective digital filter	Australia	07-17
I.I. Mokhov, V.A. Semenov, V.C. Khon	Simulation of the oceanic temperatures impact on the European weather conditions	Russia	07-19
I.I. Mokhov, A.V. Eliseev	Geoengineering efficiency: Preliminary assessment with a climate model of intermediate complexity	Russia	07-21

Table of Contents

Author	Paper Title	Country	Pages
K.E. Muryshev, A.V. Eliseev, I.I. Mokhov	Climate simulations by the IAP RAS model of intermediate complexity with an implemented ocean general circulation module	Russia	07-23
D. Paquin-Ricard, C. Jones, P. Vaillancourt	Comparison of the Cloud-Radiation Interaction between GEM and ARM-SGP Observations	Canada	07-25
D. Simjanovski, E. Girard, C. Jones, P. Du	An Evaluation of Cloud and Radiation Processes Simulated by GEM-LAM for the Arctic SHEBA Year	Canada	07-27

8. Development of and advances in ocean modelling and data assimilation, sea-ice modelling, wave modelling

Author	Paper Title	Country	Pages
A. Bozec, E. Chassignet, S. Lozier, Z. Garraffo, G. Halliwell	On the Variability of the Mediterranean Outflow Water in North Atlantic HYCOM Simulations	USA	08-01
R. Danielson	Western North Pacific SST Analyses based on Ship and Buoy Observations	Canada	08-03
V.P. Parkhomenko	Sea Ice Modelling in Global Climate Model	Russia	08-05
Y.D. Resnyansky, B.S. Strukov, M.D. Tsyrlnikov, A.A. Zelenko	Three-Dimensional Covariances of Temperature and Salinity Fields Estimated from Argo Data	Russia	08-07
S. Shimokawa, T. Matsuura	Chaotic behaviors of oceanic double-gyre under seasonal forcing	Japan	08-09
S. Somot, J. Colin	First step towards a multi-decadal high-resolution Mediterranean sea reanalysis using dynamical downscaling of ERA40	France	08-11
B. H. Vaid, C. Gnanaseelan, J. Kumar	Intraseasonal signals in the daily high resolution blended Reynolds sea surface temperature product and their validation over the Tropical Indian Ocean	India	08-13
A. Wada, H. Niino, H. Nakano	Sensitivity of tuning parameters in a mixed-layer scheme to simulated sea surface cooling caused by a passage of a typhoon	Japan	08-15
A.A. Zelenko, Y.D. Resnyansky, M.D. Tsyrlnikov, B.S. Strukov, P.I. Svireenko	Development of a Global Ocean Data Assimilation System	Russia	08-17

Table of Contents

9. Development of and studies with coupled ocean-atmosphere models

Author	Paper Title	Country	Pages
D. Noone	Variability in the Southern Annular Mode due to decadal variations in tropical heating	USA	09-01
A. Wada, N. Usui, H. Niino	The impact of oceanic observations on tropical cyclone intensity prediction in the case of Typhoon Namtheun (2004)	Japan	09-03
A. Wada, H. Niino	Numerical experiments of intensification of an idealized typhoon-like vortex under various sea surface temperatures by a nonhydrostatic atmosphere-ocean coupled model	Japan	09-05
